

THE NEGATIVE IMPACT OF OVERLOOKING MENTAL HEALTH IN THE WORKPLACE

DECREASED PRODUCTIVITY

When an employee's wellbeing is impacted, they are prone to burnout, stress or fatigue.

HIGH ATTRITION RATES

Creating a culture of support and care for employees wellbeing lowers attrition rates.

INCREASED ABSENTEEISM

Poor wellbeing can result in higher absenteeism as employees may face physical or mental health issues.

REDUCED PERFORMANCE

Mental Health issues may impact on concentration or productivity reducing quality of work and performance.

DECREASED MORALE

Poor Mental Health can contribute to a negative environment which could impact overall morale

REDUCED SATISFACTION

Employees feel less satisfied and are likely to leave when they feel that their wellbeing is not prioritised.
