

Invitation to Help SADAG

Dear Callers and Friends,

You called our SADAG Centre needing help for your Mental Health problems. Thank you for trusting us.

We are coming up to Christmas now and we humbly ask you for your help in return. There are many people here in South Africa, both urban and rural, that urgently need Mental Health help. Will you consider being its champion by making a gift to SADAG?

This year we have been fighting the dismissal of patients from Life Esidimeni Clinics, for those whose hospitals have turned them away or refused them treatment. We have helped people in need find access to medical treatment which they can afford, and for fighting for patients medical aid scheme rights.

We need funds for our Toll-Free phone lines, our postage, our call centre, printing and transport costs to schools in crisis, volunteer training and the sending out of materials such as brochures. We cannot do great calls without your help, so please consider SADAG in your choice of Christmas Gifts.

Your kindness and help is invaluable to us. Whether R25 for stickers, R100 for post, R500 for training of new Support Groups, R1,000.00 for printing newsletters or R8,000.00 for a large School Suicide Prevention day, we value every donation. If you can assist us please click the donate button below.

Best wishes and Sincerest thanks,
Zane Wilson (Founder)
